Dear Kartik Katkar,

Congratulations! We are pleased to inform you that you have passed* the Certified in Cybersecurity (CC) examination. By passing this examination, you have completed the first of three steps toward earning your certification and becoming an ISC2 member!

Next, please complete the [online application](#) form and verify you have read, understand and attest to fully support the ISC2 Code of Ethics. *This step must be completed within nine months of your exam date.*

Complete Application

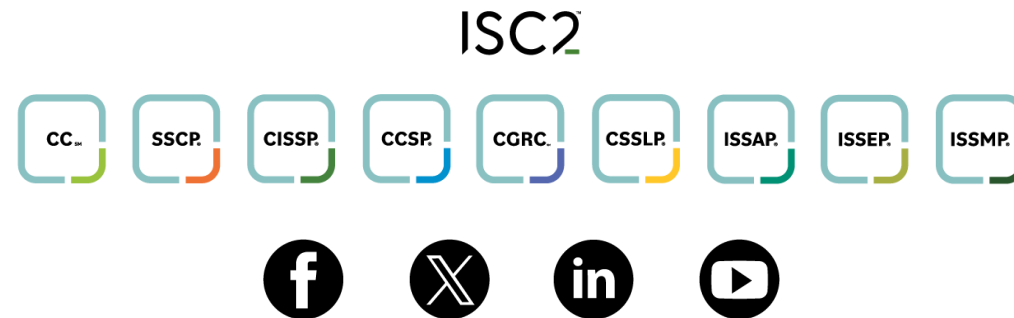

Once your application is completed, the final step in the process is to pay your first Annual Maintenance Fee (AMF). Once your AMF payment is made, your certification will be awarded. If you already hold an ISC2 certification or associate status, you will not have to pay an additional AMF for your latest

certification.

Questions? Our team is here to help. Reach out to us at
